## PROFESSIONAL SUMMARY

Passionate and dedicated front-end developer with expertise in **HTML, CSS, and JavaScript** seeks a professional internship opportunity. The skill set includes building dynamic, user-centric interfaces that prioritize accessibility and deliver seamless user experiences. Committed to implementing modern design principles and optimizing web application performance. In addition to front-end expertise, a solid understanding of **Data Structures and Algorithms (DSA)** facilitates a systematic approach to problem-solving, enabling the writing of clean, efficient, and scalable code. This combination of skills supports the ability to work on complex software projects while maintaining a focus on quality and innovation. Eager to contribute to the technical industry through meaningful projects that create a positive impact. Thrives in collaborative environments that promote learning from experienced professionals, exchanging ideas, and developing practical solutions to real-world challenges. Beyond technical work, there is a strong belief in fostering a sense of community through social activities and initiatives that promote inclusivity and teamwork. Dedicated to personal and professional growth, constantly seeking opportunities to refine skills, gain exposure to cutting-edge technologies, and contribute to projects that align with both technical abilities and a commitment to making a difference in the broader technology community.

## TECHNICAL SKILLS

**Programming Languages** : C++ ,Python ,JavaScript ,SQL/PLSQL  
**Data Structures** : Arrays, String ,Stack ,Queue, Map , Tree ,Graph  
**Databases** : MySQL  
**Dev Tools** : Visual Studio Code, Zed, Git, GitHub  
**Soft Skills** : Managed Garba Night 2024

## EDUCATION

<b>Central Academy</b> Senior Secondary 94.2% in 10th Standard	Barabanki, UttarPradesh, India Mar 2007 – June 2022
<b>VIT Bhopal University</b> Bachelor of Technology in Computer Science 9.09 CGPA	Bhopal, MadhyaPradesh, India Sept 2023 – Present

## SOFTWARE PROJECTS

<b>Face Recognition System</b>	<i>Python, OpenCV, TensorFlow, Flask</i>
<ul style="list-style-type: none"><li>Developed a system using OpenCV and TensorFlow to detect and recognize faces in images and video streams.</li><li>Created a RESTful API with Flask to handle face recognition requests, including endpoints for uploading images and retrieving recognition results.</li><li>Using SQLite to store user data and recognition results, ensuring efficient data management.</li><li>Real-time face recognition enabled via webcam input, providing instant feedback on recognized individuals.</li></ul>	

## ACHIEVEMENTS

- Specialist Badges in Binary Search Tree , Linked List , Recursion
- Achievers Badges in Array, Backtracking , Hash Table, Stacks and Queues
- LeetCode contest rating : 1457
- GeeksforGeeks contest rating : 1557
- CodeChef contest rating : 730

- Completed an intensive curriculum covering critical aspects of Data Structures and Algorithms; findings were instrumental in addressing the 3 most common causes related to inefficient code performance during practical applications.
- Solved more than 300+ coding problems on various competitive programming platforms.
- More than 130+ days of coding days show consistency and dedication towards coding.
- More than 10 badges over different platform.
